HEAVY DUTY TRUCK TYRES

Tyres4U is a division of National Tyre and Wheel (ASX, NTD) an ASX listed public company with operations Australia wide. National Tyre and Wheel also have tyre and wheel operations in South Africa and NZ. In Australia the organisation specialises in distribution and specialty tyre services nationally through Tyreright Service Centres and selected independent tyre professionals.

Tyres4U has been a supporter of the **Waste Contractors and Recyclers Association (WCRA)** for over 15 years. Through this association, Tyres4U understands the demands of the waste contracting industry and, in particular, the importance of tyre management within the heavy vehicle fleet.

Your Tyres4U representatives are:

- » John Macri 0419 615410
- » George Makris 0417 022763
- » Perry Scarfe 0400 023034

Together the team have over 85 years of experience in the tyre service industry. With a large range of products available, the team at Tyres4U focus on understanding your specific needs with a view to lowering the overall cost of tyre maintenance within your operation.

Tyres displayed are available in most common sizes and are specifically designed for metro/urban severe abrasion work.

Displayed tyres all feature:

- ✓ Deeper tread depth for longer wear
- ✓ Urban rubber compounding for longer wear and damage resistance
- ✓ Wide tread package for puncture protection
- ✓ Sidewall protection against curb damage
- ✓ Sidewall wear indicators

Call one of our tyre experts for more information on how Tyres4U can help lower your cost of operation today.
